JSmart Series

When aesthetics and functionality meet, the market changes

- from 5.0" to 21.5" TFT color display,
- up to a resolution 1920x1080 pixel with 16M colors, dimmable backlight
- PCAP Touchscreen Multitouch with swiping and zooming
- 10/100 Ethernet port PoE single cable for power and ethernet
- Wi-Fi Connection
- up to a ARM Cortex-A9 quad core CPU
- Full IP67 protection; ideal for mounting-arm installation right at the machine
- · Mounts on 22 mm hole
- Includes environment and motion sensors
- Can be used with cable up to 100 m distance from source

Every once and a while a new product arrives that changes the market. It influences the perspective of all participants by encouraging them to question the status quo. And challenging that which has been done before is when innovation leads to a lasting difference being created.

EXOR International would like to invite you on this journey of imagination and discovery by introducing the JSmart family of **Smart HMI Field Devices**. A product that seems as if from the consumer world of smartphones, tablets and PCs and yet a robust industrial grade product that will last multiple years.

We have worked for many years to redesign nearly 80% of the internal components on the board to accommodate an incredibly beautiful and slim casing. Looking at the product from any angle there is a sense of tranquillity and purity that belies the potent technology that lies beneath.

Up to a quad-core Cortex A9, multi-touch and robust glass front, a full set of motion and environment sensors and wifi interface all add up to provide you with a vast possibility of applications.

Challenge what has come before.

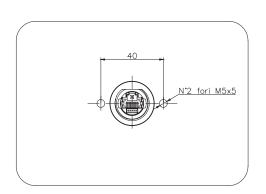

JSmart705 - Technical Data

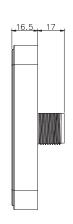

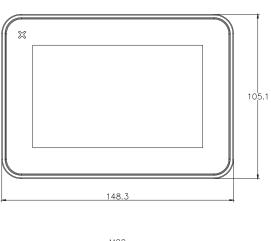

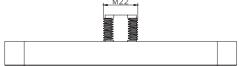

System Resources	
Display - Colors	5" TFT - 16M
Resolution	800x480
Brightness	300 cd/m² typ.
Dimming	to 0%
Touchscreen	Projected capacitive - Multitouch
CPU	ARM Cortex-A9 dual core - 800 MHz
Operating System	Linux RT
Flash	4 GB
RAM	1 GB
FRAM	64 KB
Real Time Clock, RTC Back-up	Yes
Interface	
Ethernet port	10/100 PoE
USB port	1 (Host V2.0, max. 500 mA, available with special cable)
LED	1 RGB
Sensors	Temperature, 3-Axis Accelerometer
Buzzer	Yes
Ratings	
Power supply	IEEE 802.3af PoE
Power Consumption	6 W
Battery	Yes (rechargeable)
Environment Conditions	
Operating Temp	-20° to +55° C (vertical installation)
Storage Temp	-30°C to +80°C
Operating / Storage Humidity	5-85% RH, non-condensing
Protection Class	IP67 (requires appropriate accessories and cables)
Dimensions and Weights	
Faceplate LxH	148.3x105.1 mm (5.83x 4.13")
Depth D+T+T	16.5 mm (0.06")
Weight	0.5 Kg
Approvals	
	Emission EN 61000-6-4, Immunity EN 61000-6-2
CE	for installation in industrial environment

JSmart Applications

Tube Attachments for JSmart705, 707, 710

Designed for direct tube fitting or more complex curving is required this application will work with the 5,7 and 10 inch panels. IP67 is achievable with this application.

Tube Attachments for JSmart715 and 721

Designed for direct tube fitting or more complex curving is required this application will work with the 15 and 21 inch panels. IP67 is achievable with this application.

Wall Attachment for JSmart705, 707, 710

When a simple yet sturdy attachment to a wall or cabinet is required, this application is suitable. All without losing the importance the JSmart flat casing. IP67 is achievable with this application.

Wall Attachment for JSmart715 and 721

When a simple yet sturdy attachment to a wall or cabinet is required, this application is suitable. All without losing the importance the JSmart flat casing. IP67 is achievable with this application.

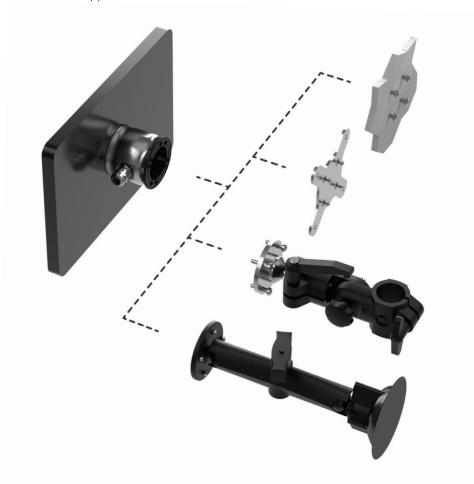

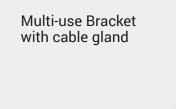

Multi-use Attachments for JSmart705, 707, 710

With some universal types of arms the passage of the ethernet cable is impeded. We provide a side output with a special cable. IP67 is achievable with this application.

Multi-use Attachments for JSmart715 and 721

With some universal types of arms the passage of the ethernet cable is impeded. We provide a side output with a special cable. IP67 is achievable with this application.

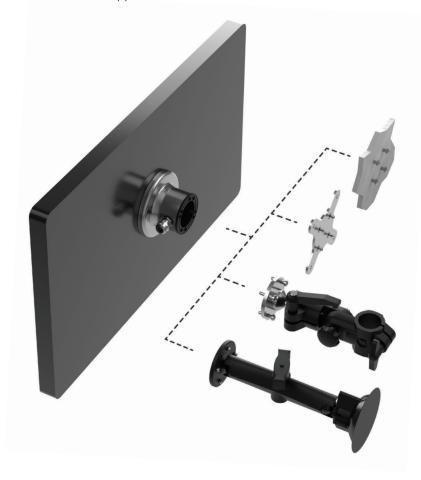

Table Stand for JSmart all sizes

The JSmart is the quintessential "Stupid Web Browser". Except that it can be used in the heat and dust of the factory floor and last for years. This desktop table stand and USB cable for mouse permits this use in a highly stylish manner. IP67 is achievable with this application.

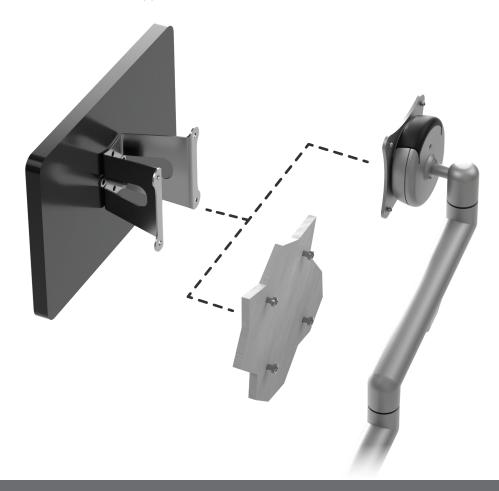

VESA Attachment for JSmart all sizes

In the very basic of situations where there is no need for the cable to be passed through the wall, this bracket can be used. IP67 is achievable with this application.

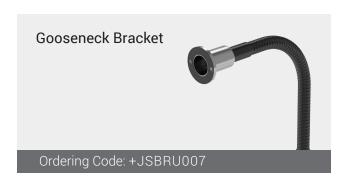

Gooseneck Attachment for JSmart705, 707, 710

The gooseneck permits the JSmart to be used in many different situations, far away from the industrial environment.

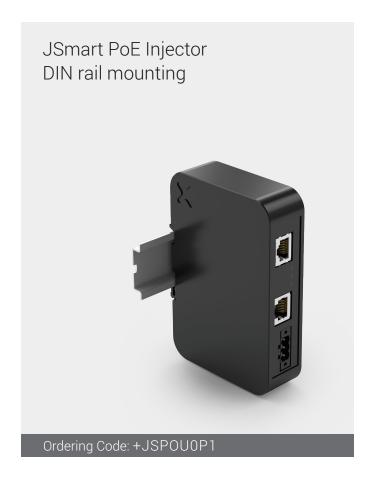

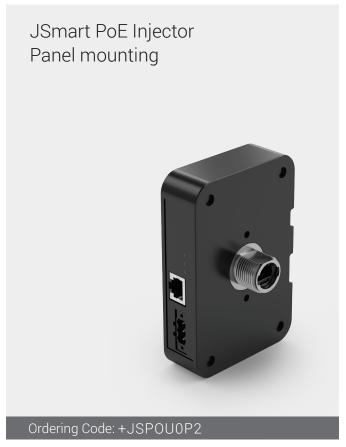

JSmart Accessories

PoE Injectors

You can choose between the JSmart PoE Injector DIN rail mounting and the JSmart PoE Injector Panel mounting.

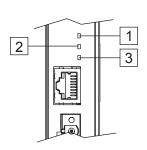

JSmart PoE Injector DIN rail mounting - Technical Data

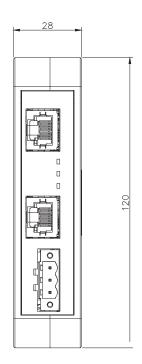

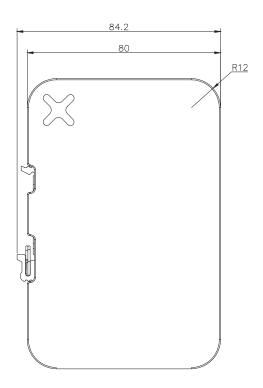

Features	
PoE Standard	IEEE 802.3af/at
Output Power	36W max
DC Output Voltage	+54 VDC
Data rates	10/100
Interface	
Ethernet IN port	10/100
Ethernet OUT port	10/100 PoE
Diagnostic LEDS	3
Ratings	
Power Supply	+24 VDC (18-32 VDC)
Current Consumption	2.0 A at 24 VDC (max.)
Efficiency	80% typ
Over Voltage / Current Protection	Yes
Short Circuit Protection	Yes
Reverse Polarity	Yes
Environment Conditions	
Operating Temp	-20°C to +55° C
Storage Temp	-30°C to +80°C
Operating / Storage Humidity	5-85% RH, non-condensing
Protection Class	IP20 EN60529
Dimensions and Weights	
Faceplate LxH	80x120 mm
Depth D	28 mm
Weight	350 g
Approvals
